

CHANTS

No more coal, no more oil, keep your carbon in the soil!

No more petrol! No more diesel! Burning fossil fuels is evil!

No borders! No nations! No gas power stations!

Hey hey, ho ho, climate change has got to go.

[Call and response]

What do we want? Climate Justice!

When do we want it? Now!

Climate change is not a lie, please don't let our planet die!

Keep it in the ground, say keep it in the ground. [Say what?]

[Show me what democracy looks like!]

This is what democracy looks like

We are unstoppable! Another world is possible!

Exxon-Mobil, BP, Shell, Take your filth and go to hell!

YEET, the oil, back into the soil.

Be the solution, not the pollution.

Global warming is a war

Of the rich against the poor

There is

No future

On a dead planet

No! There's no planet B.

1,2,3,4

Climate change has got to go.

5,6,7,8

How much longer can we wait?

Climate change is fucking real,

Give us all a green new deal!

One Solution: Revolution!
One Solution: Nae pollution!

[Call and Response]

Everywhere we go
People wanna know
Who we are?
And where we come from?
So we tell them:
We are the people
Who saved the planet
And if they can't hear us?
We shout a little louder

I am the Loroax, I speak for the trees,
Pollute again and I'll break off your knees!

It's bull! Come off it! Our planet's (/land is) not profit!

There's only one solution! And end to all pollution!

Students! and workers! Unite and fight!

Boris Johnson, get out! We know what you're all about!
Cuts! Job losses! More money for the bosses!

We want action! We want action!
